

## Directions for Viewing and Printing Online Report Cards

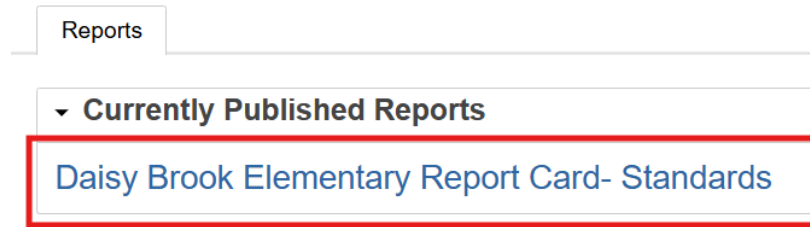

With the switch to online report cards, you will be able to access your student's report card anytime online through the parent portal.

In order to view the report card, go to the Fremont Public Schools PowerSchool Parent Portal at <https://fremont.powerschool.com/public/>. If you do not have a login, please contact the school office.

On the menu on the left-hand side of the screen will now be an option called "Student Reports".

After selecting the Student Reports option, you will see a link to your student's report card. The report card's name will reflect your student's respective school that they attend.

Once the report card loads, there is a printer icon at the top of the page that will load the page in a separate view for printing.

Please contact your school's office with any questions.
